Chapter 11 Case No 09-50026 (REG)

Dear Sir or Madam

As Holder of Claims against General Motors I received Notice of  
Hearing to consider Approval of Debtors' Proposed Disclosure  
Statement with respect to debtors' joint Chapter 11 plan.

Name and address of objecting party as above.

Amount and nature of claim:

General Motors EO Notes 2003(33) worth 5600 Euro  
Claims Register 1115 and 43884 on [www.motorsliquidation.com](http://www.motorsliquidation.com)  
(identification papers sent as copies to The Garden City Group Inc  
on Nov 16, 2009, see enclosure)

Objection:

As I am a private shareholder of General Motors without any clout  
and without knowledge of American bankruptcy procedures as well as  
without the necessary internet knowledge to conform to the  
electronic filing process, the only response and objection that I  
can have and wish to express are that  
I definitely object to General Motors getting away with the money  
I lent them without any recompense for people like me who put  
their trust in the honourable behaviour of such a big company.

I hope that the Hearing will be to that effect.

Yours sincerely
